# DODGE RAM

2500/3500

**LARAMIE  
QUAD &  
MEGA CAB®**

THE BEST CONVERSION MONEY CAN BUY!

# The Dodge Ram Laramie Quad Cab® & Mega Cab® are Stylish, Powerful, Big & Bold.

The ultimate machine to get the job done in either Quad Cab or Mega Cab. The all new Mega Cab has the biggest, roomiest, most comfortable & versatile cab around. The Quad Cab has plenty of room for 6 adults & their luggage. With power to spare & an incredible array of standard features. The SUV Laramie will impress even the toughest critic.

Power for the 2500 and 3500 models, is courtesy of the brand new 6.7 litre Cummins® that is based on the legendary B series 6 cylinder Cummins Turbo Diesel engine architecture Generating a massive **262KW** and 881N-m torque (or on the old scale **350HP** and 650 pound/feet of torque). And to handle all this torque and horsepower there is an awesome new six speed auto transmission with manual mode shift for complete towing control. An exhaust brake is standard on all auto models.

The range also includes a Cab Chassis 3500 (quad cab/single cab) for extra heavy duty applications up to 5700 kgs GVM. 2008 will see the release of the 4500 and 5500 Cab Chassis Vehicle (quad cab/single cab) with up to 5300kg carrying capacity with an 8845 kg GVM. With more than a million Cummins powered Dodges built - and 30% fewer parts than a V8 diesel, reliability is second to none. But its not just all about power... the story inside is all about luxury - with an impressive list of creature comforts that goes on and on.
